### Output Soal No. 3

The image shows a screenshot of the Visual Studio Code interface, specifically the Debug Console window. The window has a dark theme and a header bar with tabs for PROBLEMS, OUTPUT, DEBUG CONSOLE (which is active), TERMINAL, and PORTS. A search filter bar is present in the header, containing the text "Filter (e.g. text, !exclude, \escape)". The main area of the console displays the following output in yellow text on a dark background:

```
ls. Module is optimized and the debugger option 'Just My Code' is enabled.  
n = [ 2 4 7 10 13 ]  
The program '[9156] 3.exe' has exited with code 0 (0x0).
```

At the bottom left of the console, there is a small yellow arrow icon pointing to the right.
